

40 Years

Our Special 40th Anniversary Model! The haaga 670 with Electric Drive Brooms!

In celebration of our 40 years as the premier manufacturer of people powered sweepers, haaga has developed the model 670 which offers all the benefits of our patented TURBO sweeping system, PLUS our patented, super quiet electric drive system on all three brushes.

Electric drive provides approx. 90 minutes of high performance sweeping efficiency.

THE NEW HAAGA 670!
Easier and faster sweeping both inside and out!

haaga is an international company headquartered in Germany. We export to over 50 countries throughout the world and successfully protect our customers' investment due to the **high quality standards** we insist upon. Currently, our environmentally responsible factory is working toward **CO²-neutral production!**

Only good things are copied:
haaga sweepers are the original "people-powered" sweeper. Insist on the original ... haaga. Sweepers are what we do and we have been doing it successfully for over 40 years. We hold the **patents** to prove it. Ask before you buy. Don't accept lesser quality imitations.
haaga ... the sweeper with a dependable twist!!!

Eco-Friendly Sweepers

German manufacturing and design at its best!

Wielandstraße 24, D-73230 Kirchheim unter Teck

For Residential and Lighter Commercial Use:

haaga 200 series

For Commercial/Municipal Use:

haaga 400 series

For Commercial and Industrial Use:

haaga 600 series

→ unbeatable sweeping performance → no belts → large container → eco-friendly → easy to push → central brush adjustment → patented cleaning system → sweeps wet and dry debris

haaga 255 & 275

Perfect for around the house or your small business:

Circular Brooms of the 200 series reliably sweep large and small debris. Dirt, grass, wet or dry leaves are no problem for this dependable sweeping machine. Easily adjustable protruding brushes provide optimal cleaning along walls and in corners.

Perfect for concrete, asphalt, bricks, pavers and even a golf course green!

haaga 476 & 496

The 476 and 496 models incorporate our patented TURBO brush located behind the circular brooms. This added feature benefits the users by removing the fine dust, dirt etc. These 30" & 40" wide machines sweep everything from fine sand to water bottles, and can be used inside as well as outdoors.

This is the patented haaga TURBO sweeping system. It is why we are the best.

haaga 696

Battery powered brooms provide the operator effortless cleaning of hard surfaces both inside and outside. Brooms operate independently of travel.

Lightweight, ergonomic design provides "Finger-Tip" operation of the haaga 696 MasterSweep as it cleans large and small debris.

Model 696: running time approx. 90 minutes

Space-saving stand up storage design

The haaga Circular Broom System:

Adjustable, twin circular brooms rotate in opposing directions capturing dirt, leaves, grass and other debris directly in front of the machine and whisk it into the container mounted directly behind the brooms. **ONE** easy, simple action completes the job. NO dust pans, hand brooms ... and it saves water too.

*The PROFI-LINE!

As part of our 40th anniversary celebration, haaga has expanded the 400 Series to include an advanced "Profi-Line" model. The Profi-Line sweepers, feature the:

- Encapsulated gears protect from dust & dirt
- Flexible seals create nearly dust-free operation
- Heavy duty ergonomic handle
- High performance cleaning

The Patented haaga TURBO Sweeping System:

All 400 and 600 Series, including the Profi-Line sweepers, include the dual-action sweeping system. Large debris is captured by our adjustable 'perfect-pitch' side brushes while fine debris is collected with our exclusive TURBO roller brush.
